

Basic Website Templates

Here is some information to get you started on the development of your website. I have provided the folder structure, with an explanation, two basic HTML pages, and a CSS stylesheet for you to have a template to start the website project. Please DO NOT turn in this exact code. Be sure you have read it carefully and understand what you are doing.

Suggested Folder Structure

project-folder/

- index.html
- about.html
- styles.css
- images/
 - example.jpg

Explanation of structure

project-folder > the name of your main folder or directory (not project-folder)

Within the project folder you will have

- index.html > where you will put the code for the home page, name it index.html
- about.html > if you create a second page, you may want it to be an informational page such as about me, name it whatever makes sense to identify the content, ending with .html
- styles.css > where you code your styles, name it styles.css
- images/ > where you put images, this is a folder or directory, so no suffix is needed
 - example.jpg > within images you should have one or more images (.jpg or .png), name them to best identify them (not example.jpg)

Basic Website Templates

Basic HTML Home Page code template

You may copy this code into your editor and make changes as needed. DO NOT turn in something with “Welcome to My Web Page”, “My Web Page”, or “This is a simple web page created using HTML and CSS. It includes headings, text, an image, and basic styling. Learning to build web pages is a great way to understand how the internet works and how content is structured.” Make your own content, please.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0" />
  <title>My First Web Page</title>
  <link rel="stylesheet" href="styles.css" />
</head>
<body>
  <header>
    <h1>Welcome to My Web Page</h1>
    <nav>
      <ul>
        <li><a href="index.html">Home</a></li>
        <li><a href="about.html">About</a></li>
      </ul>
    </nav>
  </header>

  <main>
    <h2>Introduction</h2>
    <p>This is a simple web page created using HTML and CSS. It includes headings, text, an
image, and basic styling.</p>
    <p>Learning to build web pages is a great way to understand how the internet works and
how content is structured.</p>

    
  </main>

  <footer>
    <p>&copy; 2025 My Web Page</p>
  </footer>
</body>
</html>
```

Basic Website Templates

Basic HTML About Me code template

You may copy this code into your editor and make changes as needed. DO NOT turn in something with the text included – make it your own.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0" />
  <title>About Me</title>
  <link rel="stylesheet" href="styles.css" />
</head>
<body>
  <header>
    <h1>About Me</h1>
    <nav>
      <ul>
        <li><a href="index.html">Home</a></li>
        <li><a href="about.html">About</a></li>
      </ul>
    </nav>
  </header>

  <main>
    <h2>Background</h2>
    <p>I created this site as part of a college assignment to learn HTML and CSS. It's a fun way to explore web design and development.</p>
  </main>

  <footer>
    <p>&copy; 2025 My Web Page</p>
  </footer>
</body>
</html>
```

Basic CSS External Stylesheet

You may copy this stylesheet into your editor and make changes as needed. DO NOT turn in something with the same exact colors and styles used here. This is just a starting point – make it your own.

```
/* Basic page styling */
body {
  font-family: Arial, sans-serif;
  background-color: #f9f9f9;
  margin: 0;
  padding: 0;
  color: #333;
}
```

```
/* Header and navigation */
header {
  background-color: #4CAF50;
  color: white;
  padding: 1em;
}
```

```
nav ul {
  list-style-type: none;
  padding: 0;
}
```

```
nav ul li {
  display: inline;
  margin-right: 15px;
}
```

```
nav a {
  color: white;
  text-decoration: none;
}
```

```
/* Main content */
main {
  padding: 1em;
}
```

```
h1 {
```

Basic Website Templates

```
font-size: 2em;  
}
```

```
h2 {  
  font-size: 1.5em;  
  color: #4CAF50;  
}
```

```
img {  
  max-width: 100%;  
  height: auto;  
  border: 2px solid #ccc;  
  margin-top: 1em;  
}
```

```
/* Footer */  
footer {  
  background-color: #eee;  
  text-align: center;  
  padding: 1em;  
  font-size: 0.9em;  
}
```
